One capture — every document your listing needs.

1 What you're looking at

One walkthrough. Every document a property needs — organized around the three ways a property earns.

A single specialist walkthrough of a two-bedroom Sea Point home, filmed on an ordinary phone, became everything in this dossier. It's **de-identified** — owner, tenant and exact address removed — but every item, count, system and condition note is real. What follows is grouped three ways: **for Sales**, **for Letting** and **for Hospitality** — because the very same capture produces the documents for all three.

2 From one capture

3 One capture, three ways to profit

One capture, three ways to profit

Sell the home, let the home, or run it as a short-stay — it's the **same underlying record**, re-cut into whatever document the moment calls for. Capture once; use it everywhere.

4 ① For Sales — win the mandate, sell with proof

A documented home sells faster, argues its own price, and transfers without disputes.

Buyers pay for confidence. Walk into a listing appointment able to hand an owner a complete, professional record of their home — every fixture, every system, its condition and its worth — and you win the mandate the competition can't.

5 In the Sales pack

DOCUMENT	WHAT IT DOES
Fixtures & Contents Schedule	What stays with the home vs what's moveable — no transfer disputes
Condition Register	The state of the home on the day, photo-backed
Building Systems & Services register	Solar, backup power, security, climate — the value a buyer pays extra for
Replacement Valuation	Rebuild and contents value — a defensible point of departure on price
Investment Prospectus	Yield and returns, for buy-to-let buyers
Market & Competitor Review	Where the home sits, and what to ask
Sale listing copy	Publish-ready words for the portals

6 Building systems & services — real, and this is what adds value at sale

SYSTEM	WHAT IT MEANS TO A BUYER
Power backup — inverter + battery	Grid-tie inverter with battery and utility combiner. Keeps the home running through outages.
Rooftop solar PV array	Panels feeding the home — lower running costs, a real selling point.
Air-conditioning ×2 (split units)	Main bedroom loft + living area.
Gas fireplace (built-in, flued)	Feature heating in the lounge.
Distribution board + protection	Labelled breakers, 30 mA earth-leakage, surge-protection module.
Smoke / heat detector	Ceiling-mounted.
Alarm — PIR sensors + armed response	Multiple sensors; armed-response signage.
Geyser / hot-water cylinder	On the board; confirm location at handover.

Sale listing copy — written from the same capture

A light-filled home above the Atlantic — original character meets a soaring, double-volume living space, a loft bedroom under a sculptural spiral stair, and a private courtyard where the harbour and a slice of sea unfold before you. Two minutes from the promenade; minutes from the city and the beaches. A rare blend of heritage, light and location.

9 ② For Letting — deposits settled on evidence, not argument

The record that ends the check-out standoff.

Most inventories are a thin list a landlord regrets at check-out. This is a defensible one — every room, every item, every count and condition — so a deposit is settled on evidence, and a landlord report almost writes itself.

12 Condition & snag findings – real, room by room

WHERE	FINDING

Lounge / living area	White scuff and scratch arcs across the floorboards around the navy velvet armchair – consistent with furniture drag/caster marks.
Main bedroom loft (upstairs)	Distinct wavy tide-line / brown water stain across the lower third of the blind fabric.
Living / wall-ceiling corner	Patchy, uneven paint touch-ups with brown scuffing/soiling in the internal corner.
TV wall / media	Chipped / flaking veneer along the lower front edge of the timber panel below the Samsung badge.
Main bedroom loft	Soiling and wear in the main traffic path with a few darker marks.
Ceiling / cornice (near aircon)	Hairline crack and flaking paint along a ceiling/cornice line adjacent to the split aircon; a longer cornice run also shows crazing/flaking.
Kitchen	One tumbler in the glassware set appears to have a crack.
Kitchen	Scorched / burnt discolouration to the base from cooking.
Kitchen	Drip-tray edge shows minor rust/corrosion and wear.
Furniture / cabinet	Loose / detached edge trim strip on a white cabinet.
Distribution board	SPD module carries a FUNCTIONAL / DEFECTIVE status window; indicator state should be confirmed.
