STYLE

Premium villa-style home

CHECK-IN / OUT

14:00 / 10:00

1 How to use this

A published AssetProof sample. A real, complete record with every identifying detail removed — no address, no owner or agent name, no contact details, and no image showing a street frontage, a neighbouring property or a vehicle registration.

Two checklists in one document. The **turnover clean** is what happens between every guest — it is written to be worked straight through, room by room, in the order the house is laid out. The **deep clean** is the quarterly pass, and it assumes the turnover clean has already been done. Both are built from the actual contents of this house, so the counts and the appliance names are the real ones. Photograph anything broken, missing or stained and send it through before you leave.

3 Turnover — before you start

STEP	DETAIL
Open up	Open the shutters and windows and let the house air while you work.
Check the alarm and cameras	Disarm on entry. Cameras face outward only; do not adjust them.
Walk the house first	Before touching anything, walk every room and photograph anything broken, missing, stained or moved. That is what protects both you and the owner.
Strip	Strip both beds, clear both bathrooms of used towels and mats, and start the first wash in the garage.
Bins	Empty the pull-out kitchen bin and the recycling baskets, and every bedroom and bathroom bin.

4 Turnover — kitchen

TASK	DETAIL
Dishwasher	Empty the Bosch Serie 4 and put everything back where it belongs — plate rack, open shelving, drawer beside the sink.
Fridge / freezer	Clear all guest food from the Bosch French-door. Wipe the VitaFresh drawers and the shelves. Leave the starter basics only.
Oven and gas hob	Wipe the Whirlpool oven glass and the cavity. Lift the cast-iron supports off the hob, degrease the enamel beneath, and check every burner cap is seated and dry.

TASK	DETAIL
Extractor	Wipe the stainless canopy and the glass visor. Degrease the filters monthly.
Microwave	Wipe the Samsung inside and out, including the turntable.
Small appliances	Empty the Nespresso capsule bin and drip tray, descale the Haden kettle if it is furring, crumb-tray the toaster, and wash and dry the NutriBullet cup and blade.
Counters and splashback	Bamboo-look counters wiped and dried — never left wet. Splashback tiles and grout wiped.
Sink and taps	Double sink scoured, drains cleared, taps polished.
Crockery and glass count	23 plates · 15 bowls · serving platters · teacups, mugs and the tea service · tumblers, wine glasses and champagne flutes. Report any shortfall.
Cutlery and knives	Full flatware service returned to the drawer insert. Knives washed by hand, dried and returned to the block — never left in the sink.
Pots, pans and Pyrex	Stainless pots, the nested non-stick frying pans and the Pyrex dishes checked for burnt residue and returned to their cabinets.
Bins	Pull-out bin unit washed out and relined; wicker recycling baskets emptied and wiped.
Floor	Swept and mopped last, working out of the room.

5 Turnover — living, dining and patio

TASK	DETAIL
Soft furnishings	Sofa and both armchairs vacuumed including under the cushions. Throws and cushions shaken out and re-set. Check the seat cushions for marks and report them.
Rug	Vacuumed both ways; check the pile for stains near the centre and report anything you cannot lift.
Dining table and chairs	Solid wood wiped with the grain and dried. Both chair sets wiped down.
Coffee tables	Nested tables wiped; glass tops polished streak-free.
Television and console	Screen dusted dry only. Universal remote wiped and left on the console; batteries checked.
Plantation shutters	Louvres dusted along the blade, not across. Tracks wiped.
Air-conditioning	Jet-Air indoor unit fascia wiped; filter checked. Remote wiped and left in place.
Underfloor thermostat	OJ Microline dial wiped and set back to the standing setting.
Patio	Deck swept — the south-easter carries sand up the hillside. Outdoor table and the hanging egg chair wiped; cushions checked for damp.
Gas braai	Megamaster grates brushed down while warm, drip tray emptied, hood and stainless shelf wiped. Confirm the bottle valve is closed and report the gas level.

TASK	DETAIL
Floors	Vacuum then mop; work back towards the door.

6 Turnover — bedrooms

TASK	DETAIL
Beds	Both doubles stripped and dressed with fresh linen. Check the mattress protectors and replace if marked.
Second set	A second full set of linen and towels is provided — leave it folded in the wardrobe, not on the bed.
Wardrobes	Bedroom 1 sliding-door wardrobe and Bedroom 2 mirrored wardrobe emptied of anything left behind, shelves wiped, hangers counted and re-spaced (trouser hangers live in Bedroom 1).
Bedside tables and lamps	Wiped; lamp shades dusted; every bulb tested.
Work desks	Both floating desks wiped. The mesh WiFi unit and USB charging hub in Bedroom 1 left plugged in and dusted — do not unplug them.
Mirrors	Round mirror in Bedroom 2 and the mirrored wardrobe doors polished streak-free.
Safe	Walk-in dressing cupboard safe opened, checked empty, wiped and left open with the code cleared.
Window dressing	Roller blind in Bedroom 1 and sheer curtains in Bedroom 2 checked, straightened and dusted.
Floors and skirtings	Vacuumed including under the beds; skirtings wiped.

7 Turnover — bathrooms

TASK	DETAIL
Bath and shower	Bathroom 1: bath and the frameless glass shower — squeegee the glass, then polish. Bathroom 2: walk-in shower including the mosaic feature border, worked with a brush.
Sanitaryware	Basins, vanities and toilets cleaned and disinfected, including behind and beneath the pan.
Grout and silicone	Checked every turnover for the first sign of discolouration — it is far easier to stop than to reverse.
Mirrors and chrome	Polished dry; taps, rails and rings buffed.
Towels	Fresh bath towels, hand towels and bath mats set out in both. Rolled guest towels re-set in the Bedroom 2 shelving niche.
Consumables	Soap, toilet paper and any amenity kit topped up in both bathrooms.
Extractor and blinds	Extractor grille wiped; venetian blinds above the bath and in Bathroom 2 dusted blade by blade.
Floors	Mopped and dried — never left damp.

8 Turnover — garage, store room and finishing

TASK	DETAIL
Laundry	Bosch washer and dryer emptied, lint filter cleared, doors and detergent drawers left open to dry.
Store room	Iron, ironing board, vacuum and the beach kit returned to their shelves.
Plant room	Do not touch the inverter, battery or distribution board. Report any warning light.
Key cabinet	All keys and remotes accounted for in the garage key cabinet.
Final walk	Walk the house one more time in the order a guest arrives. Lights off, shutters set, doors locked, alarm armed.
Report	Send the photograph set and the restock list before you leave the property.

9 Deep clean — quarterly, in addition to the above

AREA	TASK
Kitchen	Pull the fridge/freezer out and clean behind and beneath it; vacuum the condenser. Run a dishwasher cleaning cycle and lift and rinse the base filter. Degrease the extractor filters. Empty every cupboard and drawer, wipe out and re-stack. Descale the kettle and the Nespresso machine.
Oven and hob	Full oven clean including the door glass interior. Burner caps and crowns soaked and dried; ignition checked on every burner.
Living	Sofa and armchairs shampooed or steam-cleaned. Rug professionally cleaned or hot-water extracted. Shutters washed blade by blade rather than dusted.
Bedrooms	Mattresses vacuumed, turned and aired. Wardrobe interiors emptied and washed out. Curtains and the roller blind laundered or steamed.
Bathrooms	Grout scrubbed and re-sealed where needed; shower silicone inspected and replaced if discoloured. Extractor covers removed and washed. Drains treated.
Windows and shutters	Glass cleaned inside and out where safely reachable; tracks and runners vacuumed then wiped.
Walls and skirtings	Spot-washed for marks; skirtings, architraves and door edges washed rather than wiped.
Light fittings	Shades and diffusers removed, washed and dried; every bulb replaced as a set rather than singly.
Patio and braai	Deck washed down. Braai stripped: grates, flame tamers and drip tray degreased; the hood interior cleaned; surface rust on the lid trim treated and reported.
Garden	Confirm the gardener has been; sweep leaf fall off the deck and the terrace steps.
Garage and store	Floor swept and washed; shelving cleared and wiped; the vacuum emptied and its filter washed.

10 Report back after every clean

This is the part that protects everybody. Send it with photographs.

REPORT	WHY
Anything broken, chipped or stained	It gets fixed before the next guest, and it cannot be blamed on the next one
Anything missing against the register	Crockery, glassware, cutlery, remotes, hangers and towels are all counted in the register
Consumables running low	Tea, coffee, sugar, salt, detergents, soap, toilet paper
Gas bottle level	So it is never changed mid-stay
Any warning light	Alarm panel, inverter, battery, appliance
Anything a guest left behind	Photograph it, bag it and label it with the stay dates

About this checklist. Prepared by AssetProof for the property owner and their cleaning team. Item counts are as recorded for the property and should be reconciled against the current Inventory & Condition Register.
