

REPLACEMENT VALUATION (INDICATIVE)

Opinion of Replacement Value

A defensible point of departure for a sum insured — not a certified valuation

PROPERTY

Two-bedroom house, City Bowl, Cape Town

REFERENCE

SAMPLE-B

INSPECTION DATE

20 July 2026

AREAS RECORDED

15

1 This is an opinion of value

A published AssetProof sample. A real, complete record with every identifying detail removed — no address, no owner or agent name, no contact details, and no image showing a street frontage, a neighbouring property or a vehicle registration.

Read this first. What follows is an **opinion of value and a point of departure for discussion**. It is not a certified valuation and it is not signed by a certified valuer. It is built from a dated visual record of every item in the property, priced new-for-old at South African retail, and stated in three bands — low, expected and high — because a single number would imply a precision the evidence does not carry.

Use it to set a sum insured, to open a conversation with an insurer or a broker, or to give an executor a defensible starting figure. For any high-value or disputed item, instruct a certified valuer to certify and sign the final number.

2 Basis of the opinion

Subject	Contents, fittings and fitted joinery of a two-bedroom house	Reference	SAMPLE-B
Location	City Bowl, Cape Town	Date of record	20 July 2026
Basis of value	New-for-old replacement, retail, South African Rand	Items priced	281 of 358 entries
Items not priced	Fixed building fabric, planted landscaping and consumables — condition recorded, no replacement figure	Evidence class	Visual, supported by the photographic plates; no receipts, serials or prior valuations held
Certification	None — a certified valuer should sign off the final figure	Review	Recommended annually, and after any material purchase or loss

3 Opinion of replacement value — whole property contents

LOW ESTIMATE	EXPECTED ESTIMATE	HIGH ESTIMATE
R0.83m	R1.46m	R2.45m

The spread between low and high is the honest measure of how much is not known: where a make or model could not be read, the band widens.

4 Opinion by area

AREA	ITEMS PRICED	LOW (R)	EXPECTED (R)	HIGH (R)	SHARE OF TOTAL
Exterior & entrance	19	59,200	112,700	200,100	7.7%

AREA	ITEMS PRICED	LOW (R)	EXPECTED (R)	HIGH (R)	SHARE OF TOTAL
Pool courtyard	14	37,380	71,600	125,800	4.9%
Outdoor courtyard & braai	18	61,000	115,750	197,500	7.9%

Double vanity unit — white floating cabinet carcass with a reddish-brown/bamboo-look varnished timber countertop, drawers below, partly supported on a single thin metal leg; drawer interior has a cut-out access panel for the plumbing riser	Main en-suite bathroom	8,000	14,000	24,000	Plate 063, Plate 064

6 How each figure was arrived at

CLASS	METHOD	CONFIDENCE
Named-brand appliances (Smeg, Defy, Samsung, Bosch, Whirlpool)	Current South African retail for the closest equivalent current model, since the exact model number could not be read	MEDIUM
Fitted joinery and built-in wardrobes	Installed cost — materials and fitting — for an equivalent run, measured from the photographic record	MEDIUM
Free-standing furniture	Retail for a like-for-like piece in the same material and size class	MEDIUM
Soft furnishings, linen and kitchen sundries	Retail, priced as a set rather than individually where the record counts a group	LOWER
Security installation (DSC alarm, electric fence, motorised gate, trellis)	Installed cost for an equivalent system	MEDIUM
Fixed building fabric, planted landscaping and consumables	Not priced. Condition is recorded; replacement is a building-reinstatement question, not a contents one	NOT PRICED

7 What would narrow the bands

What would narrow the bands

Three things, none of them expensive. **One:** photograph the data plates on the Smeg range, the Defy appliances, the Samsung television and the DSC alarm panel, so the exact models are on file. **Two:** supply any receipts or card statements for items bought in the last five years. **Three:** record the pool pump and filtration plant, which appears nowhere in the record and is therefore priced at nil. Each of those moves an item from an estimate towards a confirmed fact.

Important. AssetProof is not an insurer, loss adjuster, assessor, broker or certified valuer. This document is a structured record based on the media and information supplied for the property and on visual assessment of it. Replacement and reinstatement figures are **opinions of value and a point of departure for discussion** — they are estimates, not certified valuations, and a certified valuer should sign off the final figure for any high-value, insured or disputed item. Confirmed facts, owner-supplied information and estimates are distinguished throughout. Condition statements describe what was visible on the recorded date; they are not a structural, electrical, gas, damp or compliance survey, and no part of the fabric was opened up, moved or tested.
