

ESTATE MAINTENANCE MANUAL

Estate Care & Maintenance Manual

The handover record for the estate — every common-area feature documented, with how and when to care for it, and a signoff that proves it was done.

1 What this manual is

One document that captures every common-area feature, how to maintain it, and proof that it was maintained.

At handover, an estate is at its best — and that is exactly the moment to record it. This manual photographs and describes **every common-area feature**, sets out the **care schedule** for each (what, how and how often), and pairs it with a **living signoff register**. The body corporate signs to acknowledge receipt — closing the loop — and from then on every act of maintenance is dated and evidenced. It is the estate's operating bible and its maintenance record in one.

RECORD OVER TIME

3 Maintenance schedule (common areas)

FEATURE	SPECIFICATION	CARE TASK	INTERVAL	INDICATIVE COST
Pool safety fence	Powder-coated steel palisade	Inspect, treat rust, repaint	Every 3 years	R18,000
Swimming pool & pump	Sand-filter pump; marbelite surface	Service pump; reseal / replaster	Pump annual · surface 7–10 yrs	R6,000/YR · R85,000 RESURFACE
Irrigation system	Pop-up + drip, smart controller	Test, clear heads, service controller	Quarterly	R3,500/VISIT
Common-area lawn	Kikuyu turf; 3:1:5 fertiliser	Mow, feed, aerate	Mow weekly · feed seasonally	R4,200/MONTH
Perimeter fencing	Galvanised palisade + clearview	Inspect, treat, repaint	Every 4 years	R45,000
Automated gates	Sliding-gate motors, safety beams, batteries	Service motors & beams; replace batteries	6-monthly	R2,800/VISIT
Paving & walkways	Interlocking pavers	Re-sand joints, seal, lift trip hazards	Every 2 years	R22,000
Exterior paint (clubhouse)	Premium exterior acrylic	Wash & repaint	Every 6–8 years	R180,000
Roofs & gutters	Concrete tile; torch-on flat sections	Clear gutters; inspect waterproofing	Gutters annual · waterproof 5 yrs	R7,500/YR
Common lighting & electrics	LED bulkheads; DB boards	Test, replace fittings, CoC check	Annual	R9,000

FEATURE	SPECIFICATION	CARE TASK	INTERVAL	INDICATIVE COST
Landscaping & trees	Indigenous beds; established trees	Prune, treat, mulch, replace	Seasonal	R12,000/YR
Signage & gatehouse	Aluminium signage; guardhouse	Clean, repair, refinish	Every 3 years	R15,000

4 Feeds your 10-year plan & reserve fund

Feeds your 10-year plan & reserve fund

Each interval and cost above rolls straight into a **10-year maintenance, repair & replacement plan** and tells the scheme **how much to set aside each year** — turning a compliance obligation into a simple, costed calendar.

5 How the signoff works

Every feature has a row in the accompanying **signoff register**. When a task is done, it's dated, the contractor noted, and a photo attached. Over time this builds an unbroken, time-stamped record of upkeep — the single most useful thing to have if a defect or dispute ever arises, for **either** the developer or the body corporate.

6 Feature evidence (sample)

 Pool & safety fence Surface, pump, fencing	 Common landscaping Lawn type & irrigation	 Perimeter & gates Fencing, motors, beams
 Clubhouse Roof, paint, electrics		

7 Handover acknowledgement

Handover acknowledgement

This manual is issued to the body corporate / HOA at handover, with a **signed acknowledgement of receipt** and of the maintenance obligations it sets out — the record that completes the chain of responsibility.

Sample estate maintenance manual for demonstration; estate and figures are illustrative. This manual is a best-practice care guide: maintenance methods and intervals are recommendations to be read together with the manufacturers' and installers' instructions, and indicative costs must be confirmed against current quotes. It documents observable common-area features — it is not a structural, electrical or engineering survey. It supports — and does not replace — any statutory maintenance, repair & replacement or reserve-fund obligation applicable in the relevant jurisdiction. Prepared by AssetProof.
