1 About this register

This register records the contents and condition of the apartment as captured on 9 June 2026 (29 photographs). It is the baseline for future change-detection at turnover and a supporting document for handover and insurance. Condition is from visual assessment. Replacement values are **conservative new-for-old estimates in South African Rand** — a planning floor, not a certified valuation. Built-in fixtures (oven/hob, shower, basin, toilet, wardrobes) are noted but not separately valued.
